- a. A PUD may be a predominantly residential development referred to as a PUD-RS. A PUD-RS may only be applied to an existing residential district. The tract of land proposed to be developed as a PUD-RS must be owned, leased, or controlled by one (1) person or single entity, and must be at least five (5) contiguous acres in size.
- b. A PUD may also be a mixed use development referred to as a PUD-MX. A PUD-MX may be applied to any existing non-residential zoning district. The tract of land proposed to be developed as a PUD-MX must be owned, leased, or controlled by one (1) person or single entity, and must be at least five (5) contiguous acres in size.

Upon the approval of the final development plan, according to this section, the Official Township Zoning Map shall be amended to designate the property "PUD-RS" or "PUD-MX."

## 2. Permitted Uses

The permitted uses in both the PUD-RS and PUD-MX district are as set forth below:

### a. Permitted Uses - PUD-RS

An applicant may propose to include any mixture of permitted or conditional uses in any existing residential use district as well as land uses which are allowed as a permitted use in the GB district, provided that not more than twenty-five percent (25%) of the net acres in the development is devoted to non-residential uses.

### b. Permitted Uses - PUD-MX

An applicant may propose to include any mixture of non-residential land uses in a proposed PUD-MX development, provided that at least sixty percent (60%) of the net acres in the development are devoted to uses permitted in the district(s) applying to the property at the time of application.

## 3. General Development Standards

The following standards represent broad parameters under which all PUD developments must be designed:

**a. Central Water and Sewer Facilities**

All structures in developments approved as a PUD must be served by central or public water and sewer facilities.

**b. Development Layout and Design**

The design and layout of all PUDs shall display excellence in design by properly considering significant site features such as topography, natural drainage patterns, roadway access and circulation, surrounding land uses, and general public welfare to result in desirable land development. Attractive landscaped buffers shall be provided between incompatible land uses and activities.

**c. Front, Side, and Rear Setback Standards for Perimeter Lots**

All lots that are located along the perimeter of the PUD shall have minimum front, side, and rear setbacks equal to those that would normally be specified in the zoning district prevailing at the time of application for PUD approval or twenty-five (25) feet, whichever is greater.

**d. Off-Street Parking and Loading Facilities**

For all land uses located within the PUD, the parking and loading standards contained in **Section 12** shall be applied.

**4. Residential (PUD-RS) Development Standards**

In addition to the general development standards described in **Section 6.08 A.3.** above, residential PUDs shall meet the following development standards:

**a. Clustering Residential Development and Required Open Space**

Clustering residential density is encouraged to provide required common open space. A minimum of twenty percent (20%) of the land developed for residential purposes in a PUD-RS project shall be reserved for common open space. This required amount of common space shall be established as common open space, under one ownership, and provision shall be established for maintenance and care. The legal articles relating to any organization of property owners in the development charged with such open space maintenance shall be submitted to the Township. The Board of Township Trustees may require, as a condition of final approval, any evidence deemed necessary to document that the required common space will remain in its stated condition as long as the development

exists (including legal documents, deed restrictions, conservation easements, etc.).

**b. Clustering Residential Density**

To achieve a clustering of residential density and to provide for the required common open space, the lot area requirements for residential land uses may be reduced from the densities required under the district(s) applying to the property at the time of application by up to twenty percent (20%). The lot width and yard requirements for residential lots may also be reduced as needed to accommodate a variety of structural patterns, clustering designs, and housing types.

**c. Residential Dwelling Types**

Along with clustering residential density, a PUD-RS may include a mixture of dwelling types including single-family detached dwellings, two-family units, zero lot-line units, and multi-family units provided the maximum densities defined in each existing zoning classification are not exceeded.

**5. General PUD Approval Procedure**

The applicant for a PUD is encouraged to informally present conceptual or preliminary plans to both the Zoning Commission and Board of Township Trustees for review prior to extensive engineering and formal submission of a final development plan. Property proposed to be developed as a PUD must be rezoned to PUD; and the decision to approve a final development plan and to rezone a property to PUD are done concurrently.

**6. Final Plan**

The applicant for a PUD shall submit ten (10) copies of the proposed final plan to the Zoning Inspector along with the required application fee. The final plan shall include the following:

- a. The specific description of permitted, conditionally permitted, and accessory uses to be allowed in each area of the development.
- b. A copy of proposed deed restrictions.
- c. The final plan shall be drawn to illustrate:
  - 1) A survey and legal description of the proposed development site showing dimensions and bearings of the property lines; area in acres, topography (at two (2) foot contour intervals);

and existing features of the development site including major wooded areas, streets, easements, utility lines, and existing land uses.

- 2) The location and dimensions of all lots, setbacks, and building envelopes.
  - 3) Conceptual drawings of sewer and water facilities as well as street and drainage systems.
  - 4) A table indicating acreage devoted to various development types.
- d. Landscaping plan for all buffers and other common areas.
  - e. Architectural guidelines to apply throughout the development.
  - f. The proposed names of all interior streets proposed for the development.
  - g. Layout and dimensions of all parking and loading areas along with an indication of what they are to be built to serve.
  - h. A description of the expected timing of the development.

In addition to the above, the Board of Township Trustees may require additional information including environmental impact studies and archaeological surveys prepared by appropriate professionals to document the impacts of the development, and to address potential mitigation measures. The applicant shall be responsible for reasonable expenses incurred by the Township in reviewing final development plans. Such expenses are beyond application fees established by the Township and may include professional service fees such as legal expenses or fees from other professionals; engineers, landscape architects, planners, or environmental scientists incurred in connection with reviewing the plans submitted.

## **7. Final Plan and Rezoning Approval Procedure Process**

The decision to rezone land to PUD and to approve the final plan are accomplished concurrently. All PUD final plan submissions are deemed to be an application for amendment to the Zoning Code according to **Section 9**. All procedures (Zoning Commission review, public hearings, and action by the Board of Township Trustees) therein shall be followed in considering an application for a rezoning of the land in question to PUD. Upon approval of such plan and rezoning, the Township Zoning map shall be amended to designate the project area as "PUD-RS" or "PUD-MX." Thereafter, with the

concurrent approval of the rezoning and final plan pursuant to the criteria stated in **Section 6.08.A.8**, all development restrictions and conditions described in the final plan shall become official requirements of the PUD.

**8. Criteria of Approval - Final Plan**

The Zoning Commission and Board of Township Trustees shall review the proposed final plan according to the following criteria:

- a. That the proposed document is in conformity with the goals and objectives of the Auglaize County Comprehensive Plan;
- b. That the proposed development advances the general health, safety, and morals of the Township;
- c. That the interior road system, proposed parking, and any off-site improvements are suitable and adequate to carry anticipated traffic generated by and within the proposed development;
- d. That any exception from standard district requirements can be warranted by design and other amenities incorporated in the final development plan according to these PUD requirements;
- e. That the area surrounding said development can be planned and zoned in coordination and substantial compatibility with the proposed development;
- f. That the existing and proposed utilities, including water and sewer service, and drainage plan will be adequate for the population densities and non-residential uses proposed in the PUD.

**9. Amendment (Changes)**

After the final development plan has been approved by the Board of Township Trustees, adjustments or rearrangements of buildings, parking areas, entrances, heights, or yards may be requested by the proponents. Minor changes, as defined herein, are allowed provided such requests conform to the standards established by the final development plan and this Resolution. A minor change shall require approval by the Zoning Commission and shall include the following:

- a. Adjustments to the size and location of buildings, swimming pools, and other on-site structures provided:
  - 1) They do not result in an increase in the number of housing units approved in the final plan.

- 2) They do not encroach materially into the established setback areas.
- 3) They do not create a larger building mass either through an increase in their height or length that would magnify their effect on the adjoining areas.

- b. Alterations to the proposed drives and/or parking areas, if they do not encroach into building areas or specified recreation areas.
- c. Adjustments in the size and location of development identification signs.

A major change is any change that does not meet the criteria above and, in addition, is one which would constitute a significant alteration in the basic plan design, or result in a use different from those originally intended. A major change shall require submittal of a final plan as defined in **Section 6.08.A.6.**, of that portion of the development proposed to undergo a major change.

## SECTION 7 SUPPLEMENTAL DISTRICT REGULATIONS

---

### 7.01 General

The purpose of supplementary district regulations is to set specific conditions for various uses, classifications of uses, or areas wherein problems may occur in order to alleviate or preclude such problems, and to promote the harmonious exercise of property rights without conflict.

### 7.02 Principal Building Per Lot

Unless specifically provided for, no more than one (1) principal building or structure may be constructed upon any one (1) lot for the purposes of this Resolution.

### 7.03 Conversion of Dwelling to More Units

A residence may not be converted to accommodate an increased number of dwelling units unless:

- A. The yard dimensions still meet the yard dimensions required by the zoning regulations for new structures in that district.
- B. The lot area per family equals the lot area requirements for new structures in that district.
- C. The floor area per dwelling unit is not reduced to less than that which is required for new construction in that district.
- D. The conversion is in compliance with all other relevant codes and ordinances.

### 7.04 Existing Lots of Record

Any lot of record existing at the effective date of this Resolution in any residential district with buildings existing on the two (2) lots adjoining at the side which are in different ownership may be used for the erection or reconstruction of a single-family dwelling, even though its area and width are less than the minimum requirements set forth herein. Where two (2) adjoining lots of record with less than the required area and width are held by one (1) owner, lots shall be combined and used for one (1) main building or use. In either case, the required setbacks shall be met, unless a variance is granted.

## 7.05 Temporary Buildings and Uses

The following regulations are necessary to govern certain uses which are of a non-permanent nature. For such uses requiring a temporary Zoning Certificate, an application for a Zoning Certificate shall be made to the Zoning Inspector at least seven (7) days before the instigation of such use. This application shall contain a graphic description of the property to be used, a description of the proposed use, and a drawing with sufficient information to determine the yard setback, parking, and sanitary facility requirements for the proposed temporary use.

- A. The following uses are deemed to be temporary uses and shall be subject to the specified regulations and time limits which follow as well as the regulations of any district in which they are located:
1. Real estate sales offices which contain no living accommodations shall be permitted within any district for any new subdivision for a period of one (1) year, except that two (2), six-month (6) extensions may be granted if conditions warrant. Such offices shall be removed upon the completion of the sales of the lots therein or upon the expiration of the Zoning Certificate, whichever occurs first.
  2. Temporary buildings, construction trailers, offices, equipment, materials, and storage facilities required in conjunction with construction activity may be permitted in any district for a period of one (1) year, except that six-month (6) extensions may be granted if construction is substantially underway. Such uses shall be removed immediately upon completion of the construction or upon expiration of the zoning permit, whichever occurs first.
  3. Temporary sales and services may be permitted within parking areas within any commercial district. A Zoning Certificate valid for a period not to exceed seven (7) consecutive days shall only be issued three (3) times within any twelve-month (12) period to any individual or organization. The application for the temporary Zoning Certificate shall be accompanied by written permission of the property owners and shall be prominently displayed at the site. The Zoning Inspector shall not issue a permit for such temporary use if he or she determines that it encroaches upon more than twenty-five (25) percent of the required parking area.
  4. Temporary retail sales and services, such as the sales of plants, flowers, arts and crafts, farm produce, or similar items on lots other than parking lots, including any lot on which an existing business is operating or on which a business is vacated, may be permitted for any for-profit individuals or organizations in any commercial district. A Zoning Certificate valid for a period not to exceed two (2) consecutive days shall only be issued three (3) separate times for any particular lot within any twelve-month (12) period, and not more than one (1) permit may be issued at the same time for any lot. The applicant must submit a current vendor's license or transient vendor's license, and a written statement from the property owner giving his

or her permission for such use. This section shall not be interpreted to prohibit any such use in any case where a valid covenant or deed restriction specifically authorizes such use. In any event, the Zoning Certificate shall be prominently displayed at the site.

5. Except as authorized in **Section 7.05**, inclusive, temporary buildings or other temporary facilities are strictly prohibited. This prohibition includes, but is not limited to, the use of trailers of any description as a building or storage facility.

  2. A description of the temporary use sought to be carried on.
  3. The number and names of persons to be involved in the temporary use.
  4. Any additional information required by the Zoning Inspector to establish the advisability of granting the permit.

#### **7.06 Regulation of Accessory Uses and Buildings**

It is the intent of this section to permit accessory uses and buildings to be established and maintained in a manner which makes them compatible with principal uses and harmonious with uses upon adjacent properties.

##### **A. General Requirements**

Except as otherwise provided in this Resolution, an accessory use or structure shall be permitted in association with a principal use or structure provided that:

1. It shall not contain or be used as a dwelling unit.
2. It shall be setback from any property line a distance of ten (10) feet or the height of the wall most nearly parallel to the lot line, whichever is greater.

##### **B. Dwellings as Accessory Uses**

**C. Accessory Elderly Dwelling Unit**

Notwithstanding the provisions of **Section 7.03.E.** of this Resolution, an owner-occupied single-family dwelling unit may be converted to allow the incorporation of one (1) additional dwelling unit for the exclusive occupancy of an elderly household, a member of which shall be an elderly person related to the owner of the single-family dwelling unit. Such accessory elderly dwelling unit shall be wholly contained within the existing principal building or shall be attached to it by a common wall, floor, or ceiling. **7.07 Reduction of Area or Space**

No lot, yard, parking area, or other space shall be reduced in area or dimension if such reduction has the effect of making the lot, yard, parking area, or other space less than the minimum required by this Resolution. Furthermore, any lot, yard, parking area, or other space which is already less than the required minimum shall not be reduced further. However, nothing in this section shall be interpreted to limit the power of the Board of Zoning Appeals in the granting of variances under this Resolution.

Group or multi-family dwellings shall be considered as one (1) building for the purpose of determining front, side, and rear yard requirements. The entire group as a unit shall require one (1) front, one (1) rear, and two (2) side yards as specified for dwellings in the appropriate district. Each individual building shall meet all yard requirements for the appropriate district as though it were on an individual lot.

**D. Side and Rear Yard Requirements for Non-Residential Uses Abutting Residential Districts**

Non-residential buildings or uses shall not be located nor conducted closer than forty (40) feet to any lot line of a residential district, except that the minimum yard requirements may be reduced to fifty percent (50%) of the requirement if acceptable landscaping or screening approved by the Zoning Inspector is provided. Such screening shall be a masonry or solid fence between four (4) feet and eight (8) feet in height, maintained in good condition, and free of all advertising or other signs. Landscaping provided in lieu of such wall or fence shall consist of a strip of land not less than twenty (20) feet in width planted with an evergreen hedge or dense planting of evergreen shrubs not less than four (4) feet in height at the time of planting. Either type of screening shall not obstruct traffic visibility within sixty (60) feet of an intersection.

## SECTION 10 NON-CONFORMING USES

---

### 10.01 Non-Conforming Use

- A. The lawful use of any dwelling, building, or structure on any lot or premises existing and lawful at the time of enactment of this Zoning Resolution, supplement, or amendment:
  - 1. May continue even though such use does not conform with the provisions of this Zoning Resolution or any supplement or amendment made after the enactment of this Resolution provided that no such non-conforming use of land shall in any way be expanded or extended either on the same or adjoining property, except when authorized by the Board of Zoning Appeals in accordance with the provisions of **Section 10.02**.
- B. If no structural alterations are made, a non-conforming use of a building may be changed to another non-conforming use of the same or of a more restricted classification. Whenever a non-conforming use has been changed to a more restricted use or to a conforming use, such use shall not be changed thereafter to a less restricted use.
- C. In the event that a non-conforming use of any dwelling, building, or structure, and of any lot or premises is voluntarily discontinued for a period of twelve (12) months or more, any future use of the dwelling, building, or structure shall be in conformity with the provisions of this Resolution.
- D. Any building arranged, intended, or designated for a non-conforming use, but at the time of the passage of the Zoning Resolution is not being so used and continues to be unused for a period of twelve (12) months from the time of the passage of the Zoning Resolution, shall not, after such twelve (12) months, be used except in conformity with the regulations of the district in which such building is located.
- E. Any person or corporation claiming right of operation or use as a pre-existing non-conforming use as described in this section shall make and preserve reasonable records and other proofs of the existence and extent of such use at the time it becomes non-conforming due to this Zoning Resolution or amendments thereto.
- F. Without prior approval, a non-conforming use may be extended throughout that portion of a structure that was obviously designed and intended for such use.
- G. Any building arranged, intended, or designated for a non-conforming use, the construction of which has been started but not completed at the time of the passage of this Zoning Resolution, may be completed and put into such non-conforming use, providing it is completed within one (1) year after this Zoning Resolution takes effect.

- H. When a non-conforming building or structure has been damaged by fire, explosion, act of God, or the public enemy to the extent of more than seventy-five percent (75%) of its fair market value, it shall not be restored or reconstructed except in conformity with regulations of the zoned district in which the building or structure is located.
- I. When a non-conforming use qualifies for reconstruction through damage, a building permit shall be secured for that purpose and reconstruction shall be diligently completed without delay. Failure to reconstruct within a year of damage revokes the right to non-conforming use, and the premises shall conform thereafter to the established district regulations.
- J. When non-conforming trailers or mobile homes are located on a lot in any district other than a mobile home park and are once removed, they shall not be relocated on such lot and shall not be replaced with another trailer or mobile home.
- K. A use in violation of the provisions of the Zoning Resolution which this resolution amends or of a Zoning Resolution covering an area of a township subsequently annexed to a Village shall not be validated by the adoption of this Resolution.
- L. The Board of Zoning Appeals in an appropriate case and under its power to permit variance from the terms of this Zoning Resolution may, upon appeal, permit the substitution of a specific non-conforming use in place of a different non-conforming use, upon such conditions and with such limitation as the board shall deem in the public interest. A non-conforming use of buildings, land, or structures shall not entitle such user to change a lawful pre-existing use to a specific different non-conforming use without proceeding as above provided, but upon the abandonment of a non-conforming use shall be deemed to have been abandoned.

#### **10.02 Non-Conforming Structures**

Any structure was built prior to the adoption of this Zoning Resolution and is considered to have non-conforming setbacks, additions to, or enlargement of an existing structure which presently encroaches upon required side or rear yards, may be permitted if the proposed addition or enlargement follows the existing structure setbacks, and the addition or enlargement will not exceed any other lot lines.

#### **10.03 Abandoned Automobile Service Stations, Gas Stations, or Filling Stations**

- A. For the purpose of this Zoning Resolution, an abandoned automobile service station, gas station, or filling station shall be defined as one in which the petitioner or lessee has failed to operate for at least six (6) consecutive months in any eighteen (18) month period.
- B. All automobile service stations, gas stations, or filling stations where use is discontinued after the enactment of this Zoning Resolution shall be presumed to be a nuisance affecting or endangering surrounding property values and to be detrimental to the public health, safety, convenience, comfort, property, or general welfare of the community and shall be abated (**ORC 3791.11-13 and 3791.99**).
