

The Ohio General Assembly, passed HB 420 which created a county law library resources board replacing the county law library association.

The new County Law Library Resources Board must provide legal research, references and library services to the county, municipal corporations, townships and courts within the county and must manage the coordination, acquisition and utilization of legal resources.

The Board of County Commissioners is required to make two appointments to the new Law Library Resources Board. Articles appeared in the county newspapers to solicit names of persons interested in serving on this Board. The Commissioners received a number of contacts for the two positions.

The Board of County Commissioners wishes to thank all those who voiced their willingness to accept an appointment to this Law Library Resources Board. After much deliberation over the candidates, the Commissioners appointed Kraig E. Noble, an Attorney from St. Marys, and Mark Cisco, a Certified Public Accountant from New Bremen.

The Commissioners are very appreciative of county residents who are willing to step up and serve on the various Boards and organizations to which appointments are mandated to be made by the Board of County Commissioners .
