The bridges listed below were previously posted for EV3 vehicles. Due to recent load rating law changes, the EV3 vehicle has now become a permit vehicle. This change allows for the two bridges listed below to no longer be posted for weight reductions:

LOG-121-21.15: Located on Bowsner Road over Two Mile Creek in Logan Township
STM-061-08.81: Located on Plattner Pike over Carter Creek in St Marys Township

It is important to note that these load reduction postings will have a minimal effect on standard daily travel throughout the County. School bus routes will not be affected. These bridges are in overall good condition but were not designed to carry these heavy loadings. All signs denoting the load weight reductions will be placed in accordance with the latest edition of Ohio Manual of Uniform Traffic Control Devices.

Respectfully,

Andrew Baumer, P.E., P.S.
Auglaize County Engineer

THEREFORE BE IT RESOLVED that the Board of County Commissioners, Auglaize County, Ohio, respective of the Engineer's expertise and recommendation , does hereby authorize the reduction of load limits for the three bridges as listed above, with load limits as stated above for the vehicle weight on each bridge; and,

BE IT FURTHER RESOLVED that the Board does request that the County Engineer post said bridges accordingly as soon as possible.

Commissioner Baumer seconded the Resolution and upon the roll being called, the vote resulted in the adoption of the Resolution as follows:
