MEDTRAK
Your Prescription for Service

Welcome to MedTrak Services, Your Prescription For Service.

Dear Member:

This booklet contains important information about your prescription benefits.

There are a few things you should do to get the most out of your prescription benefits:

- 1) Register on our website at www.medtrakservices.com
- 2) Call if you have questions at 1.800.771.4648

We look forward to serving you!

- Your friends at MedTrak Services

Can I obtain a 90-day supply of my **NEWLY** prescribed medication?

Your prescription drug plan includes a "Starter Dose" program. Prior to getting a 90-day supply of any new medication at a Performance 90 pharmacy or through Mail Service, you must start with a 30-day supply at a participating retail pharmacy. This reduces waste in cases where your doctor tells you to stop taking the new medication early due to efficacy or side effects.

Will I pay more if I choose to fill a Brand when a Generic is available?

Yes. If your brand drug has a generic equivalent, you will pay a higher copay in addition to the difference in cost between the brand and generic prescription. The difference in cost will not be applied towards your Out-of-Pocket Maximum.

What is the difference between a brand and a generic?

Cost. The FDA requires that a generic drug have the same quality and performance as its brand counterpart. Generics are less expensive because they are not required to repeat costly clinical trials the brand drug completed, along with lower advertising, marketing and promotion costs. To find out if your drug offers a lower cost alternative, go to the MedTrak website.

What is Step Therapy?

Step Therapy is a program designed for members who take medication on a regular basis to control their condition to offer the best medication at the lowest possible cost. With Step Therapy, members who are taking a Step-Two medication are provided a less expensive Step-One alternative, which has been clinically proven to be safe and effective in treating the condition. For more information, go to our website and find more information on Step Therapy under Member Forms.

What if I have more questions?

We want to help you! We highly encourage you to call a MedTrak Pharmacy Benefit Advisor at 1.800.771.4648 or visit our website at medtrakservices.com. In addition, if you encounter any issues when visiting your local pharmacy, please ask the pharmacist to call us so we can assist them right away!

This is practical information regarding your Prescription Benefit Plan. For a more detailed description of your Health Plan, please refer to your Summary Plan Description (SPD) provided by your plan sponsor and/or your Medical Benefits Provider.

What copay will I pay for my medication?

Please refer to the copay structure table within this booklet.

Generic CoPay: The amount you are required to pay for a Generic medication, which are low cost medications.

Formulary CoPay: The amount you are required to pay for a Formulary medication, which are high cost generics and low cost brand medications.

Non-Formulary CoPay: The amount you are required to pay for a Non-Formulary medication, which are expensive brand medications that may have a lower cost alternative.

Please refer to the copay structure table within this booklet. You will pay either the Generic copay or the Formulary Brand copay for drugs on the formulary. If you are taking a drug that is not a Formulary drug, you will pay the higher copay. Please refer to the **MedTrak National Preferred Formulary**, which can be found by logging on to www.medtrakservices.com and accessing Member Forms under the Member Resources section. Please ask your doctor to prescribe a Generic or Formulary drug whenever possible.

How can I find out more about cost savings?

Go to www.medtrakservices.com. Click on Rx Price Finder to find the cost of specific drugs and lower cost alternatives. Please discuss this information with your doctor. Switching to the preferred alternative will save you and your employer money.

MEBC - Auglaize County Employees utilizes MedTrak Services to administer the Prescription Drug Plan.

Your Plan Benefit Details:

Effective: 1/1/2015 MedTrak Group #: 10002211

Participating Pharmacy	Preferred Pharmacy Network	Performance 90 Network	Mail Service
Maximum Supply Allowed	30 Days	90 Days	90 Days
Generic Copay	\$10	\$20	\$20
Formulary Copay	\$35	\$70	\$70
Non-Formulary Copay	\$50	\$100	\$100
