CHAPTER 25 - DEFINITIONS .................................................................................................. 62
CHAPTER 1 - GENERAL PROVISIONS

1.00 TITLE
A RESOLUTION TO REGULATE, RESTRICT AND LIMIT THE LOCATION AND THE USE OF BUILDINGS, STRUCTURES AND LAND, FOR BUSINESS, INDUSTRY, RESIDENCES OR OTHER PURPOSE; TO REGULATE AREA HEIGHT AND SETBACKS; TO PROVIDE FOR A METHOD OF ADMINISTRATION AND ENFORCEMENT; AND TO PRESCRIBE PENALTIES FOR VIOLATIONS OF THE WITHIN PROVISIONS.

This Resolution may also be known as "The Zoning Resolution for St. Marys Township", and may be herein referred to as "this Resolution."

1.01 PREamble
Whereas it has been determined by the Board of Township Trustees of St. Marys Township, it is in the interest of promoting the public health, safety, and morals, to regulate by Resolution, and in accordance with a comprehensive plan, the location, height, bulk, number of stories, and size of buildings and other structures, including tents, cabins, and trailer coaches, percentages of lot areas that may be occupied, set back building lines, sizes of yards, courts, and other open spaces, the density of population, the use of buildings and other structures including tents, cabins, and trailer coaches, and the use of land for trade, industry, residences, recreation, or other purpose in the unincorporated territory of St. Marys Township, and for such purpose, shall divide all of St. Marys Township into zoning districts.

1.02 REPEAL OF PREVIOUS ZONING RESOLUTION
Upon the adoption of this Resolution, and subsequent effective date, the previous Zoning Resolution, or any amendments thereto, shall be repealed.

1.03 AREA OF JURISDICTION
The provisions of this Resolution shall apply to all unincorporated areas of St. Marys Township, Auglaize County, Ohio.

1.04 PROVISIONS DECLARED MINIMUM REQUIREMENTS
In their interpretation and application, the provisions of this Resolution shall be held to be minimum requirements, adopted for the promotion of the public health, safety, and the general welfare. Wherever the requirements of this Resolution conflict with the requirements of any other lawfully adopted rules, regulations, ordinances, or resolutions, the most restrictive, or that imposing the higher standards, shall govern.

1.05 SEPARABILITY CLAUSE
Should any section or provision of this Resolution be declared by the Courts to be unconstitutional or invalid, such decision shall not affect the validity of this Resolution as a whole, or any part thereof other than the part declared to be unconstitutional or invalid.

1.06 CONFORMANCE REQUIRED
Except as hereinafter provided:
(A) Change in Use
No land, building, or structure shall be used, or change in use, except in conformance with the use allowed in the Zoning District in which it is located.

(B) Construction
No building shall be erected, converted, enlarged, or reconstructed, nor shall any building or structure be placed on a parcel of land, except in conformance with the setback, height or other applicable dimensional standards described in the zoning district for which such property is located.

(C) Subdivision
No lot or parcel of land may be subdivided into a smaller lot or parcel except in conformance with the lot size requirements prescribed in the zoning district within which such property is located.

1.07 PENDING APPLICATIONS FOR ZONING PERMITS
Nothing in this Resolution shall require any change in approved plans, or construction activity underway for which an approved zoning permit has been granted before the enactment of this Resolution, or any amendment hereto (See Chapter 21, for other applicable time limits on zoning permits).
CHAPTER 2 - PROVISIONS FOR OFFICIAL ZONING MAP

2.00 OFFICIAL ZONING MAP
The St. Marys Township Zoning Map is hereby adopted as part of this Resolution. Subsequent amendments to this zoning map will be made in accordance with provisions of Chapter 24 of this Resolution.

2.01 IDENTIFICATION OF THE OFFICIAL ST. MARYS TOWNSHIP ZONING MAP
The Official St. Marys Township Zoning Map shall be identified by the original signature of the Chairman of the Board of St. Marys Township Trustees and attested by the St. Marys Township Clerk. The Official St. Marys Township Zoning Map shall be held on file in the St. Marys Township Hall. Copies of this map may be produced and distributed, but current and official determinations of zoning district boundaries shall be made from this Official Zoning Map.

2.02 INTERPRETATION OF DISTRICT BOUNDARIES
Where uncertainty exists with respect to the boundaries of any of the zoning districts as shown on the Official Zoning Map, the following rules shall apply:

(A) Parallel Lines
Where district boundaries are so indicated that they are approximately parallel to the center lines or street lines of streets, or the center lines or right of way lines of highways, such district boundaries shall be construed as being parallel thereto and at such distance therefrom as indicated on the Official Zoning Map. If no distance is given, such dimensions shall be determined by the use of the scale shown on the Official Zoning Map.

(B) Lot Lines
Where district boundaries approximately follow lot lines, such lot lines shall be construed as being a boundary of a zoning district.

(C) Rail Lines
Where the boundary of a district follows a railroad line, such boundary shall be deemed to be located in the middle of the main tracks of said railroad line.

Any questions of interpretation of the Official Zoning Map, which cannot otherwise be resolved, shall be referred to the Board of Zoning Appeals for determination in accordance with Chapter 23.

2.03 RESPONSIBILITY FOR MAINTENANCE OF THE OFFICIAL ST. MARYS TOWNSHIP ZONING MAP
The St. Marys Township Zoning Inspector shall be responsible for maintenance of the St. Marys Township Zoning Map and shall illustrate all rezonings or other changes made thereto.
2.04  **ESTABLISHMENT OF DISTRICTS**

CHAPTER 3 - GENERAL REQUIREMENTS

3.00  AGRICULTURE

Except as noted below, nothing in this Resolution shall prohibit or otherwise regulate the use of land for agricultural purpose, prohibit or otherwise regulate the construction of buildings or structures for agricultural purpose.

(A)  Dwellings

Dwellings anywhere in St. Marys Township are not herein defined as agricultural structures and are subject to all zoning requirements contained in this Resolution.

(B)  Agricultural Activity in Platted Subdivisions or Subdivided Areas.

Pursuant to ORC 519.21, this Resolution regulates agriculture activity, agriculturally-related buildings or structures, and dairying and animal and poultry husbandry on lots less than five acres within any area consisting of fifteen or more lots approved under section 711.131 of the Revised Code that are contiguous to one another, or some of which are contiguous to one another and adjacent to one side of a dedicated public road, and the balance of which are contiguous to one another and adjacent to the opposite side of the same dedicated public road.

(C)  Farm Markets

Pursuant to ORC 519.21, the use of any land for a farm market where fifty per cent or more of the gross income received from the market is derived from produce raised on farms owned or operated by the market operator in a normal crop year is permitted anywhere in St. Marys Township. However, in all cases, farm market structures must meet other requirements as may be specified with regard to size of the structure, size of parking areas that may be required, set back building lines, and egress or ingress.

3.01  PUBLIC UTILITIES & TELECOMMUNICATIONS TOWERS

Pursuant to ORC 519.211, the Revised Code confers no power on any board of township trustees or board of zoning appeals in respect to the location, erection, construction, reconstruction, change, alteration, maintenance, removal, use, or enlargement of any buildings or structures of any public utility or railroad, whether publicly or privately owned, or the use of land by any public utility or railroad, for the operation of its business. As used in this division, “public utility” does not include a person that owns or operates a solid waste transfer facility, a solid waste transfer facility, other than a publicly owned solid waste transfer facility or a publicly owned solid waste transfer facility that has been issued a permit under Chapter 3734 of the Revised Code or a construction and demolition debris facility that has been issued a permit under Chapter 3714 of the Revised Code. The Revised Code does confer power on a board of township trustees or board of zoning appeals with respect to the location, erection, construction, reconstruction, change, alteration, removal, or enlargement of a telecommunication tower, but not with respect to the maintenance or use of such a tower or any change or alteration that would not substantially increase the tower’s height.

3.02  SALE OF ALCOHOLIC BEVERAGES

Pursuant to ORC 519.211, this Resolution does not prohibit the sale of alcoholic beverages in any retail business, hotel, restaurant, private club, or similar establishment. However, regardless of whether or not an establishment sells alcoholic beverages, such usage must be permitted use in the zoning district in which such property is located.
3.03 **UNSAFE BUILDINGS**
Nothing in this Resolution shall prevent the strengthening or restoring to a safe condition any part of any building or structure declared unsafe by a proper authority.

3.04 **CONVERSION OF DWELLINGS**
The conversion of any building into a dwelling, or the conversion of any dwelling so as to accommodate an increased number of dwelling units or families, is permitted only in accordance with all requirements of this Resolution including requirements such as minimum lot sizes of the zoning district within which such property is located.

3.05 **REQUIRED LOT AREA OR OPEN SPACE CANNOT BE REDUCED**
No lot, yard, court, parking area, or other space shall be reduced in area or dimension so as to make such area or dimension less than the minimum required by this Zoning Resolution.

3.06 **LOT FRONTAGES FOR LOTS OVER 5 ACRES**
Whenever a parcel of more than five (5) acres is being subdivided from a larger parcel, the minimum required lot frontage is fifty (50) feet, and at no point shall the width of the lot be less than fifty (50) feet. An easement of access is not permitted in lieu of this frontage requirement.

3.07 **LOT WIDTH TO DEPTH RATIO**
All new lots subdivided from a larger parcel which are less than five (5) acres in size, may not have a ratio of lot depth to lot width which is greater than three (3) to one (1). In other words, a lot which has 100 feet of lot width, may not have a lot depth which is greater than 333. In certain zoning districts, specific amounts of frontage may be required.

3.08 **MANUFACTURED HOUSING AND ASSOCIATED FACILITIES**

(A) **Manufactured Home Parks, Recreational Vehicle Parks, and Recreation Camps.**
Pursuant to ORC 3733 and 3720, manufactured home parks, recreational vehicle parks, recreation camps and temporary park-camps are regulated with respect to specific development standards by the Ohio Department of Health. Said use however, must be listed as a permitted use within the zoning district within which such use is proposed to be located.

(B) **Location of Permanently Sited Manufactured Homes and Industrialized Units**
A permanently sited manufactured home or industrialized unit as defined in this Zoning Resolution is permitted in any district which permits a single-family home. Such permanently sited manufactured homes or industrialized units shall comply with all zoning requirements that are uniformly imposed on all single-family residences in a district or zone.

(C) **Sales, Display and Storage of Manufactured Homes, Industrialized Units, Recreational Vehicles, and Portable Camping Units.**
All sales, display and storage of manufactured homes, industrialized units, recreational vehicles and portable camping units are deemed commercial use and shall be located in appropriate commercial zoning districts.
(D) Temporary Use of a Manufactured Home Unit
A manufactured home may be used as a temporary office or building incidental to construction of a building or development on the premises on which the manufactured home is located, only during the time that the construction or development is actively underway, and for a period not to exceed eighteen (18) months. Such starting date shall be determined with the issuance date of a building permit for the permanent structure.

(E) Replacement of Manufactured Homes
Any lawfully existing manufactured home on an individual lot, and outside of an established manufactured home park, may not be replaced with another manufactured home, unless it is in full compliance with all provisions of this Zoning Resolution.

3.09 JUNK YARDS, JUNK MOTOR VEHICLE STORAGE, AND INOPERABLE MOTOR VEHICLE STORAGE
Junk yards, as defined herein are not permitted in any zoning district. Junk motor vehicle storage and inoperable motor vehicle storage are also not permitted within any zoning district. Vehicles meeting the definition of a historical motor vehicle are not included in the same category as junk or inoperable vehicles.

3.10 MINIMUM DWELLING SIZES
Except in areas that are zoned R-4 or SR-4, no dwelling, or manufactured home may be placed, erected, moved or constructed anywhere in such areas unless such dwelling provides more than 800 square feet of gross living area, exclusive of garages, breezeways, unfinished basements, or other spaces not typically used as year round living area. In areas that are zoned R-4 or SR-4, no dwelling, or manufactured home may be placed, erected, moved or constructed in such areas unless such dwelling provides more than 600 square feet of gross living area, exclusive of garages, breezeways, unfinished basements, or other spaces not typically used as year round living area.

3.11 AIRPORT RELATED USE REGULATIONS & AUGLAIZE COUNTY AIRPORT ZONING REGULATIONS
In recognition of the airport facility near New Knoxville, notwithstanding any other provisions of these Regulations, no use may be made of land or water within any zone established by these Regulations in such a manner as to create electrical interference with navigational signals or radio communication between the airport and aircraft, make it difficult for pilots to distinguish between airport lights and others, result in glare in the eyes of pilots using the airport, impair visibility in the vicinity of the airport, create bird strike hazards, or otherwise in any way endanger or interfere with the landing, takeoff, or maneuvering of aircraft intending to use the airport. All communication towers, microwave towers, radio or television towers, high voltage, or low power transmission towers, or similar structures must comply with the Auglaize County Airport Zoning Regulations.

3.12 BUILDING SITE GRADING
Within all zoning districts, all lots shall be appropriately graded to provide for adequate movement of water away from the structure and toward drainage swales, street ditches, or storm sewers. Before any zoning permit for a principal structure is approved, a drainage plan must be provided, illustrating finished grades and directions of surface water flows. Such drainage plan shall be based upon the guidelines established in Water Management and Sediment Control for Urbanizing Areas, published by the United States Department of Agriculture, Soil Conservation Service, Columbus, Ohio, June 1978.

3.13 TEMPORARY USES
Within all zoning districts, except FP, temporary uses such as carnivals and church festivals may be allowed subject to the approval of the Board of Zoning Appeals in accordance with Chapter 23.
3.14 OUTSIDE STORAGE OF BOATS, RECREATIONAL VEHICLES AND UTILITY TRAILERS

In any zoning district which permits dwellings as a principal permitted use, the outside storage of a boat, recreational vehicle or utility trailer, for more than 48 hours, is prohibited unless all the following conditions are met:

1) Such boat, vehicle or trailer is intended for pleasure purposes and is not part of a business; and
2) Such vehicle is uninhabited; and
3) Such boat, vehicle, or trailer is parked in the side or rear yards; and
4) Such boat, vehicle, or trailer is at least five (5) feet from any adjoining property line.

3.15 REGULATION OF SIGNS AND OUTDOOR ADVERTISING

Commercial signs which identify a place of business, goods or services provided are regulated by this Resolution in accordance with the requirements of each zoning district. Outdoor advertising is also regulated according to Section 18.07. Zoning permits are required for these types of signs as described in Chapter 21.

The following types of signs do not require a zoning permit and are exempt from these regulations:

1) The flag, pennant or insignia of any nation, state, city or political unit, or any duly constituted government body.
2) Cornerstones or official historical signs.
3) Traffic directional signs, or any sign placed in a location by a duly constituted government body.
4) Political signs which are removed within 30 days following a given election.
5) Real estate for sale signs located on property for sale.
6) Agricultural signs that pertain to commodities produced on the premises.
7) Signs of a temporary nature that are removed from a property within 120 days, and do not re-appear.
CHAPTER 4 - FLOODPLAIN OVERLAY DISTRICT

4.00 FLOODPLAIN OVERLAY ZONING DISTRICT (FPO)

This Overlay Zoning District is created to apply to areas within the regulatory floodplain, as defined by the Federal Emergency Management Agency and the National Flood Insurance Program. This Overlay Zoning District is created to help ensure that all new development is elevated or otherwise "floodproofed" in compliance with the Auglaize County Floodplain Regulations, and that land uses or activities which involve regulated or hazardous chemicals or substances are not permitted within the flood zone of Grand Lake St. Marys.

The boundaries of the Floodplain Overlay District have been placed on the Official St. Marys Township Zoning Map to generally reflect the most current available maps produced by the National Flood Insurance Program. In all cases, the limits of the floodplain are intended to be based on 100 year frequencies. All official determinations with regard to compliance with the Auglaize County Floodplain Regulations are to be made using official Flood Insurance Rate Map (FIRMs) produced by the Federal Emergency Management Agency and on file in the Office of the Auglaize County Engineer.

4.01 PRINCIPAL PERMITTED USES

With the exception of those prohibited uses described in Section 4.03 herein, any use that is allowed within the underlying zoning district is permitted provided evidence is shown that the proposed new structure or land use is in compliance with the Auglaize County Floodplain Regulations.

4.02 CONDITIONAL PERMITTED USES

CHAPTER 17 - PLANNED UNIT DEVELOPMENT DISTRICT (PUD)

17.00 PURPOSE
The purpose of the Planned Unit Development (PUD) is to achieve, to the greatest possible degree, land development which is responsive to the natural and environmental assets and liabilities of a given site. The PUD should be a well-integrated development in terms of major design elements such as roads, drainage systems, utilities, and open space. The PUD also allows greater design flexibility so that natural features may be protected and development concentrated in an innovative and efficient manner.

17.01 GENERAL REQUIREMENTS
A PUD may be located in any area of St. Marys Township where the applicant can demonstrate that a proposed development would meet the purpose of this Article. The tract of land proposed to be developed as a PUD must be owned, leased, or controlled by one (1) person or single entity, and must be at least ten (10) continuous acres in size.

17.02 PERMITTED AND CONDITIONAL USE
A developer may propose to include any mixture of and uses which are listed as being permitted or conditionally permitted in any zoning district (except for Industrial), with the following limitations: The proposed location of commercial use shall not have an adverse impact upon adjacent property or the public health, safety, and morals. Not more than thirty-five percent (35%) of the gross acres in a proposed development may be devoted to commercial use. Further, not more than twenty-five percent (25%) of the gross acres in a proposed development may be devoted to dwellings which are not detached single-family dwellings.

17.03 DEVELOPMENT STANDARDS
The following standards represent broad parameters under which all PUD developments must be designed:

(A) Central Water & Sewer Facilities
All developments approved as a PUD must have central water and sewer facilities.

(B) Clustering Residential Development & Density
Clustering residential development is encouraged to provide required common open space. Overall, the area devoted to residential land use shall have a maximum overall density of three (3) dwelling units per acre of land (net acres, excluding roads). This overall density may however, be clustered in particular areas of the development to a level of up to ten (10) dwelling units per net acre in any given area, provided however, that no less than forty (40) percent of the site is devoted to useful and desirable common open space established to provide recreational opportunities and to preserve unique environmental features on the site. Any proposed land use which is not residential shall not count toward a calculation of allowable density or required open space.

(C) Maximum Impervious Surface
For all areas proposed for residential use in the development the amount of impervious surface proposed must not exceed fifty (50) percent of the total developed residential area. For all areas proposed for commercial use in the development, the amount of impervious surface proposed must not exceed seventy-five percent (75%) of the total commercial area. Impervious surfaces include but are not limited to, parking areas, loading areas, and roof tops.
(D) Development Layout and Design:
Specific residential density as well as the development intensity of non-residential use and the development design and layout shall be based on the applicant’s ability to provide sufficient evidence to the Township Zoning Commission and the Township Trustees that the overall development demonstrates excellence in design by properly considering: significant natural and historic features, topography, natural drainage patterns, roadway access and circulation, surrounding land use, the enhancement of the general welfare of the public, and aesthetically desirable land development. Attractive landscaped buffers shall be provided between incompatible land use and activities.

(E) Front, Side & Rear Setback Standards for Perimeter Lots
All lots which are located along the perimeter of the PUD shall have minimum front, side and rear setbacks equal to those which would normally be specified in the applicable conventional zoning district for the particular land use.

(F) Common Space:
A minimum of forty percent (40%) of the gross acres developed in the PUD shall be reserved for common open space for the residents of the area. This required amount of common space shall be established as open space forever and provisions shall be established for maintenance and care. The legal articles relating to any organization of property owners in the development charged with such open space maintenance is subject to review and approval by the St. Marys Township Zoning Commission and Trustees. The St. Marys Township Zoning Commission, and/or St. Marys Township Trustees may require as a condition of final approval, any evidence deemed necessary to document that the required common space will remain in its stated condition forever (including such legal documents as deed restrictions, conservation easements, etc.).

(G) Front, Side, and Rear Setback Standards for Interior Lots:
Within the PUD, the standards for setbacks shall be fully described in the proposed preliminary and final development plan submitted in accordance with the requirements of this Article.

(H) Off Street Parking and Loading Facilities
For all land use located within the PUD, the Parking and Loading standards contained in Chapter 19 shall be applied.

17.04 GENERAL PUD APPROVAL PROCEDURE
The applicant for a PUD must submit both a preliminary plan and a final development plan. Property must also be rezoned to PUD and the decision to approve a final development plan and to rezone a property PUD is done concurrently. The final development plan, together with all conditions, stipulations, and requirements become the zoning requirements for that particular property. All development restrictions described in the final development plan and supporting documents become the official zoning requirements of the subject property.

17.05 PRELIMINARY DEVELOPMENT PLAN SUBMISSION
The applicant shall submit ten (10) copies of a proposed preliminary plan to the Zoning Inspector along with the required application fee. The proposed preliminary development plan shall include the following:

The St. Marys Township Zoning Commission's approval of a preliminary plan will be considered an approval of the preliminary development plan in principle only. Approval of the preliminary plan does, therefore, not approve any development on the site nor shall it be construed to absolutely endorse a precise location of use, configuration of parcels, or engineering feasibility. Approval of the Preliminary Development Plan is necessary however, before the applicant may submit a Final Development Plan to the Zoning Commission and Township Trustees for approval and rezoning to PUD.

17.09 FINAL PLAN

The applicant shall submit ten (10) copies of the proposed Final Plan to the Township Zoning Inspector along with the required application fee. All procedures (notices, public hearings, and final action by the St. Marys Township Trustees), therein shall be followed in considering an application for a rezoning of the land in question to PUD. Upon approval of such application to rezone the property in question to PUD, the Zoning District Map shall be amended to designate the project area as "PUD". Thereafter, with the concurrent approval of the rezoning and final plan pursuant to the criteria stated in Section 414.13, all development restrictions and conditions described in the Final Plan shall become official requirements of the PUD.

17.11 CRITERIA OF APPROVAL - FINAL PLAN

These harmful effects are documented in previously published studies conducted by cities across the country, such as The City of Denver, City of New York, Indianapolis, Springfield Missouri, Kansas City Missouri, Boston Massachusetts, State of Minnesota, and Manatee County Adult Use Studies. Since sexually-oriented business uses have been proven to impact the quality of life of a community, the following regulations are established.

19.07 GENERAL INTERPRETATION OF THIS CHAPTER

In the interpretation of the above, the following rules shall govern:

Parking spaces for other permitted or conditional use not listed in this article shall be determined by the Board of Zoning Appeals upon an appeal from a decision of the zoning inspector.

Fractional numbers shall be increased to the next whole number.
CHAPTER 20 - NON-CONFORMITIES

20.00 INTENT
Within the districts established by this Resolution or amendments that may later be adopted there exists lots, use of land, structures, and use of structures and land in combination which were lawful before this resolution was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this resolution or future amendments. It is the intent of this Resolution that non-conformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or use prohibited elsewhere in the same district.

20.01 NONCONFORMING LOTS OF RECORD
In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this resolution, notwithstanding limitations imposed by other provisions of this resolution. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership.

If two (2) or more lots or a combination of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this resolution and if all or part of the lots with no buildings do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel. For the purpose of this resolution and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this resolution, nor shall any division of any parcel be made which creates a lot with a width or area below the requirements stated in this resolution.

20.02 NON-CONFORMING USE OF LAND
Where, at the time of adoption of this resolution, lawful use of land exist which would not be permitted by the regulations imposed by this resolution, the use may be continued so long as they remain otherwise lawful, provided:

No such non-conforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied by such use at the effective date of or amendment of this resolution.

No such non-conforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of or amendment of this resolution.

If any such non-conforming use of land is discontinued or abandoned for more than two (2) years (except when government actions impede access to the premises), any subsequent use of land shall conform to the regulations specified by this resolution for the district in which such land is located.

No additional structure not conforming to the requirements of this resolution shall be erected in connection with such non-conforming use of land.

20.03 NON-CONFORMING STRUCTURES
Where a lawful structure exists at the effective date of adoption or amendment of this Resolution that could not be built under the terms of this Resolution by reason of restriction on area, lot coverage, height, yards, its location on the lot, or bulk, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:
No such non-conforming structure may be enlarged or altered in a way which increases its non-conformity, but any structure or portion thereof may be altered to decrease its non-conformity. For example, a building which has an existing side yard setback of 10 feet and is located in a zoning district which requires a 20 foot side yard setback, may not be enlarged upon so that the existing 10 foot side yard setback is further reduced to below 10 or lengthened along that side yard.

Should such non-conforming structure or non-conforming portion of structure be destroyed by any means, it shall not be reconstructed except in conformity with the provisions of this resolution.

Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

20.04 NONCONFORMING USES OF STRUCTURES OR OF STRUCTURES AND LAND IN COMBINATION.

If a lawful use involving individual structures, or of a structure and land in combination, exists at the effective date of adoption or amendment of this Resolution that would not be allowed in the district under the terms of this Resolution, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Resolution in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located;

2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Resolution, but no such use shall be extended to occupy any land outside such building;

3. If no structural alterations are made, any nonconforming use of a structure or structure and land in combination, may, upon appeal to the Board of Zoning Appeals, be changed to another nonconforming use provided that the Board of Zoning Appeals shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Zoning Appeals may require appropriate conditions and safeguards in accord with other provisions of this Resolution;

4. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed;

5. When a nonconforming use of a structure, or structure and land in combination, is discontinued or abandoned for more than two (2) years (except when government action impedes access to the premises), the structure, or structure and land in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located;

6. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.

20.05 TERMINATION OF USE BY DAMAGE OR DESTRUCTION.

In the event that any nonconforming building or structure is destroyed by any means to the extent of more than fifty (50) percent of the cost of replacement of such structure, exclusive of foundation, it shall not be rebuilt, restored, or reoccupied for any use unless it conforms to all regulations of this Resolution. When such a nonconforming structure is damaged or destroyed to the extent of fifty (50) percent or less of the replacement cost, no repairs or rebuilding
shall be permitted except in conformity with all applicable regulations of this Resolution and the following conditions:

1. A Zoning Permit pertaining to such restoration shall be applied for and issued within one (1) year of such destruction, and rebuilding shall be diligently pursued to completion.

2. Such restoration shall not cause a new nonconformity, nor shall it increase the degree of nonconformance or noncompliance existing prior to such damage or destruction.

20.06 REPAIRS AND MAINTENANCE.

On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing, provided that the cubic content existing when it became nonconforming shall not be increased. Nothing in this section shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official. Where appropriate, a permit for such activities shall be required.

Such permits shall be displayed on the subject property until construction is completed.

21.05  USE PERMIT
When no new construction or alteration of an existing structure is involved, and when the use of a property or structure changes, a use permit is required. At a minimum, three (3) copies of the application shall be submitted.

If the work described in any zoning permit has not been substantially completed within twelve (12) months of the date of issuance thereof, said permit shall expire and be revoked by the zoning inspector; and written notice thereof shall be given to the persons affected, together with notice that further work as described in the canceled permit shall not proceed unless and until a new zoning permit has been obtained.

21.11 **PENALTIES FOR VIOLATION**
Violation of the provisions of this resolution or failure to comply with any of its requirements, including a failure to obtain a zoning permit or violation of conditions and safeguards established in various sections of this resolution or failure to comply with any of its requirements, shall cause the violator thereof to be fined as set forth in Ohio Revised Code Section 519.99, and in addition, pay all costs and expenses involved in the case. Each day such violation continues, after receipt of a violation notice, may be considered a separate offense. The owner or tenant of any building, structure, premises, or part thereof, and any architect, builder, contractor, agent, or other person who commits, participates in, assists in, or maintains such violation may each be found guilty of a separate offense, and suffer the penalties herein provided. Nothing herein contained shall prevent the township from taking such other lawful action as is necessary to prevent or remedy any violation.
21.12 SCHEDULE OF FEES, CHARGES, AND EXPENSES

The Board of Township Trustees shall, by resolution, establish a schedule of fees, charges, and expenses and a collection procedure for zoning permits, amendments, appeals, variances, conditional use permits, plan approvals, and other matters pertaining to the administration and enforcement of this resolution requiring investigations, inspections, legal advertising, postage, and other expenses. The schedule of fees shall be available in the office of the zoning inspector, and may be altered or amended only by the Board of Township Trustees. No permit will be issued until the appropriate fee has been paid, and no hearing or appeal will be conducted until the requested deposit has been posted with St. Mary's Township.
