- B. Regulating the intensity of land use through the control of the amount of lot area on which construction is authorized and a determination of the area of open space surrounding any man-made improvements upon the land.

- D. Protecting residential, business, commercial, and industrial land uses from encroachment by incompatible land uses that would not be conducive to the public health, safety, and general welfare.
- E. Regulating certain nonconforming uses of land, buildings, and structures.
- F. Promoting a pattern of rational land use relationships among residential, business, commercial, and industrial uses for the purposes of promoting the public health, safety, and general welfare.

- H. Will have vehicular approaches to the property which shall be so designed as not to create an interference with traffic on surrounding public streets;
- I. Will not result in the destruction, loss, or damage of a natural, scenic, or historic feature of major importance.
- J. Will otherwise be in conformance with all other sections of this ordinance.

1131.03 Action by the Board of Zoning Appeals

Within 30 days after the date of the public hearing provided in Section 1131.05, the BZA shall take one of the following actions:

- A. Approve issuance of the Conditional Use Permit by making an affirmative finding in writing that the proposed conditional use is to be located in a district wherein such use may be conditionally permitted, that all conditions for approval of such use in such district have been met, and that such use will neither result in significant negative impacts upon nor conflict with surrounding uses. Such written finding may also prescribe supplemental conditions and safeguards. Upon making an affirmative finding, the BZA shall direct the Zoning Inspector to issue a Conditional Use Permit for such use which shall list all conditions and safeguards specified by the BZA for approval.
- B. Make a written finding that the application is deficient in information or is in need of modification and is being returned to the applicant. Such finding shall specify the

information and/or modifications which are deemed necessary. Make a written finding that the application is denied and specify the reason(s) for disapproval.

1131.04 Additional Criteria

A. Additional Conditions

The BZA may impose other conditions for a conditional use in addition to those prescribed in this Section if, in the BZA's judgment, additional conditions are necessary for the protection of the public health and for reasons of safety, and convenience.

B. Supplemental Conditions and Safeguards

In granting approval for any conditional use, the BZA may prescribe appropriate conditions and safeguards in conformance with this Zoning Code. Any violation of such conditions and safeguards, when made a part of the terms under which the conditional use is granted, shall be deemed a punishable violation of this Zoning Code.

C. Expiration of Conditional Use Permit

A Conditional Use Permit shall be deemed to authorize only one particular conditional use, and said permit shall automatically expire if such conditionally permitted use has not been instituted or utilized within 30 days of the date on which the permit was issued, or if for any reason such use shall cease for more than 1 year.

1131.05 Public Hearing

A public hearing shall be held by the BZA in considering an application for a Conditional Use Permit.

The BZA shall hold a public hearing within 30 days after it receives an application for a Conditional Use Permit submitted by an applicant through the Zoning Inspector.

1131.06 Notice of Public Hearing in Newspaper

Before conducting a public hearing, notice of such hearing shall be given in one newspaper of general circulation in Washington Township at least 10 days before the date of said hearing. The notice shall set forth the time and place of the hearing, and shall provide a summary explanation of the conditional use proposed.

1131.07 Notice to Parties of Interest

Prior to conducting a public hearing, written notice of such hearing shall be by first-class mail, at least 10 days before the date of the hearing to all parties of interest, to include all parties within 200 feet. The failure to deliver the notification as provided in this Section shall not invalidate any such grant of a Conditional Use Permit. The notice shall contain the same information as required in Section 1135.06 Notice of Public Hearing in Newspaper.

1131.08 Procedure and Requirements to Determine that a Use is Substantially Similar

Where a specific use is proposed that is not listed or provided for in this Zoning Code, the Zoning Inspector will make a determination, if the proposed use is substantially similar to a specific use that is listed or provided for in this Zoning Code. If Zoning Inspector finds that a use is substantially similar to a specific use listed in this Zoning Code, the substantially similar use is deemed to be a substantially similar permitted use in those districts where the specific use is a permitted use, and a substantially similar conditional use in those districts where the specific use is a conditionally permitted use.

The following standards shall be considered by the Zoning Inspector when making a determination that a use is substantially similar to a permitted or a conditional use within a specific district:

- A. The compatibility of the proposed use with the general use classification system as specified in this Zoning Code.
- B. The nature, predominant characteristics, and intensity of the proposed use in relation to those uses specified by this Zoning Code as being permitted, or in the case of a conditional use, conditionally permitted, in that district.
- C. The size, dimensional requirements, parking requirements, traffic generation potential, and other regulatory considerations normally associated with uses as specified in this Zoning Code.

Should a use be determined to be substantially similar to a specific permitted or conditionally permitted use provided for in this Zoning Code, it shall then be permitted in the same manner and under the same conditions and procedures as the use is permitted to which it has been found to be substantially similar.

If the Zoning Inspector determines that a proposed use is not substantially similar, such determination can be appealed to the BZA. If the Zoning Inspector determines that a proposed use is substantially similar, such determination can also be appealed to the BZA by other affected or interested parties.

The Zoning Inspector shall maintain as a public record a listing of all uses which have been determined to be substantially similar. For each such use the record shall include the use as

listed in the Zoning Code, the use listed in the Zoning Code about which the determination of substantial similarity was made, and the dates of any actions thereupon. This record shall also contain the same information for all uses which have been determined not to be substantially similar. The Zoning Inspector shall consult this record in the process of issuing future permits.

1133.00 NONCONFORMITIES

1133.01 Intent

Within the districts established by this Zoning Code, or by amendments thereto which may later be adopted, lots, uses of land, structures, and uses of structures and land in combination exist which were lawful before this Zoning Code was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this Zoning Code. The legitimate interest of those who lawfully established these nonconformities are herein recognized by providing for their continuance, subject to regulations limiting their completion, restoration, reconstruction, extension, and substitution. Furthermore, nothing contained in this Zoning Code shall be construed to require any change in the layout, plans, construction, size, or use of any lot, structure, or structure and land in combination, for which a Zoning Permit became effective prior to the effective date of this Zoning Code, or any amendment thereto. Nevertheless, while it is the intent of this Zoning Code that such nonconformities be allowed to continue until removed, they should not be encouraged to survive. Therefore, no nonconformity may be moved, extended, altered, expanded, or used as grounds for any other use(s) or structure(s) prohibited elsewhere in the district without the approval of the BZA, except as otherwise specifically provided for in this Zoning Code.

1133.02 Uses Under Conditional Use Provisions, Not Nonconforming Uses

Any use which is permitted as a conditional use in a district under the terms of this Zoning Code shall not be deemed a nonconforming use in such district, but shall without further action be considered a conforming use.

1133.03 Incompatibility of Nonconformities

Nonconformities are declared by this Zoning Code to be incompatible with permitted uses in the districts in which such uses are located. A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this Zoning Code by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be generally prohibited in the district in which such use is located.

1133.04 Avoidance of Undue Hardship

To avoid undue hardship, nothing in this Zoning Code shall be deemed to require a change in the plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Zoning Code and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in a permanent position and fastened in a permanent manner. Where demolition or removal of an existing building has been

substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that the work shall be carried out diligently.

1133.05 Substitution of Nonconforming Uses

So long as no structural alterations are made, except as required by enforcement of other codes or ordinances, any nonconforming use may, upon appeal to and approval by the BZA be changed to another nonconforming use of the same classification or of a less intensive classification, or the BZA shall find that the use proposed for substitution is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the BZA may require that additional conditions and safeguards be met, which requirements shall pertain as stipulated conditions to the approval of such change, and failure to meet such conditions shall be considered a punishable violation of this Zoning Code.

Whenever a nonconforming use has been changed to a less intensive use or becomes a conforming use, such use shall not thereafter be changed to a more intensive use.

1133.06 Single Nonconforming Lots of Record

In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this Zoning Code, notwithstanding limitations imposed by other provisions of this Zoning Code. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area or width, or both, of the lot shall conform to the regulations for the district in which such lot is located. Variances of requirements listed in this Zoning Code, other than lot area or lot width, shall be obtained only through action of the BZA as described in Section 1141.00 Appeals and Variances.

1133.07 Nonconforming Lots of Record in Combination

If two or more lots or a combination of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Zoning Code, and if all or part of the lots with no buildings do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this Zoning Code, and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this Zoning Code, nor shall any division of any parcel be made which creates a lot with a width or area below the requirements stated in this Zoning Code.

1133.08 Nonconforming Uses of Land

Where, at the time of adoption of this Zoning Code, lawful uses of land exist which would not be permitted by the regulations imposed by this Zoning Code, the uses may be continued so long as they remain otherwise lawful, provided:

- A. No such nonconforming uses shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Zoning Code.
- B. No such nonconforming uses shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such uses at the effective date of adoption or amendment of this Zoning Code.
- C. No additional structure not conforming to the requirements of this Zoning Code shall be erected in connection with such nonconforming use of land.

1133.09 Nonconforming Structures

Where a lawful structure exists at the effective date of adoption or amendment of this Zoning Code that could not be built under the terms of this Zoning Code by reason of restrictions on area, lot coverage, height, setbacks, yards, its location on the lot, bulk, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity. It shall not be considered an increase to its nonconformity if the addition meets all zoning requirements. (See Illustration – Exhibit “D” Section 1123.00 Definitions.)
- B. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

1133.10 Nonconforming Uses of Structures or of Structures and Land in Combination

If a lawful use involving individual structures, or if a structure and land in combination, exists at the effective date of adoption or amendment of this Zoning Code that would not be allowed in the district under the terms of this Zoning Code, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No existing structure devoted to a use not permitted by this Zoning Code in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or

structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.

- B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Zoning Code, but no such use shall be extended to occupy any land outside such building.
- C. If no structural alterations are made, any nonconforming use of a structure or structure and land in combination, may, upon appeal to the BZA, be changed to another nonconforming use provided that the BZA shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the BZA may require appropriate conditions and safeguards in accord with other provisions of this Zoning Code.
- D. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.

1133.11 Termination of Nonconformities

A. Termination of Use Through Discontinuance

When any nonconforming use is discontinued or abandoned for more than 1 year, any new use shall not thereafter be used except in conformity with the regulations of the district in which it is located, and the nonconforming use may not thereafter be resumed. The intent to continue a nonconforming use shall not be evidence of its continuance.

B. Use by Damage or Destruction

Any non-conforming use of a building or structure which has been damaged or destroyed may be reconstructed as it previously existed prior to the damage or destruction. Such restoration shall not cause a new nonconformity, nor shall it increase the degree of nonconformance or noncompliance existing prior to such damage or destruction. A Zoning Permit pertaining to such restoration shall be applied for and issued within 1 year of such damage or destruction, and rebuilding shall be diligently pursued to completion. When such a nonconforming structure is so damaged or destroyed, and not going to be reconstructed as it previously existed, no rebuilding, restoration, or reoccupation shall be permitted except in conformity with all applicable regulations of this Zoning Code

1135.00 OFF-STREET PARKING AND LOADING FACILITIES

1135.01 Intent

The intent of the off-street parking and loading regulations is to protect the public health, safety, and welfare by insuring that all land uses have adequate amounts of off-street parking and loading areas in order to not create traffic hazards on public streets.

1135.02 General Parking Requirements

In all districts, at any time any building, structure, or use of land is erected, enlarged, increased in capacity, or used, there shall be provided for every use off-street parking spaces for automobiles. A parking plan shall be required for all uses except for single- or two-family residential uses. The parking plan shall be submitted to the Zoning Inspector as part of the application for a Zoning Permit. The plan shall show the boundaries of the property, parking spaces, access driveways, circulation patterns, drainage and construction plans, and boundary walls, fences and a screening plan, as appropriate.

1135.03 Off-Street Parking Design Standards

All off-street parking facilities including entrances, exits, maneuvering areas, and parking spaces shall be in accordance with the following standards and specifications:

- A. Parking Space Dimensions: Each off-street parking space shall have an area of not less than 162 square feet exclusive of access drives or aisles, and shall be of usable shape and condition.
- B. Access: There shall be adequate provisions for ingress and egress to all parking spaces. Where the lot or parking spaces do not provide direct access to a public street, an access drive shall be provided, with a dedicated easement of access, as follows:
 - 1. For a single-, two-, or three-family residential dwelling, the access drive shall be a minimum of 10 feet in width.
 - 2. For all other residential uses and all other uses, the access drive shall be a minimum of 18 feet in width.
 - 3. All parking spaces, except those required for single-, two-, or three-family dwellings, shall have access to a public street in such a manner that any vehicle leaving or entering the parking area from or into a public street or alley shall be traveling in a forward motion.
- C. Setbacks: In C and I districts, off-street parking spaces may be located in the required front yard on lots where business or industry is located, provided that a 10-foot grass

area is located between the parking area and the street right-of-way, and that 1 tree for every 30 feet of frontage is planted in this grass area.

- D. Screening: In addition to the setback requirements specified in this Zoning Code for off-street parking facilities for more than five vehicles, screening shall be provided on each side of a parking area that abuts any Residential District. Screening shall comply with Section 1129.05 Buffer and Transition Between Residential/Commercial and Residential/Industrial Zoned Properties.
- E. Drainage: All parking spaces, together with driveways, aisles, and other circulation areas shall be graded and drained so as to dispose of surface water which might accumulate within or upon such area, and shall be designed to prevent the excess drainage of surface water onto adjacent properties, walkways, or onto the public streets. Adequate arrangements shall be made to insure acceptable diversion to an adequate storm water drainage system. Drainage shall also meet the requirements of Auglaize County Design Criteria and Construction Standards and Drawings.
- F. Barriers: Wherever a parking lot extends to a property line, fencing, wheel stops, curbs, or other suitable barriers shall be provided in order to prevent any part of a parked vehicle from extending beyond the property line.
- G. Visibility: Access of driveways for parking areas shall be located in such a way that any vehicle entering or leaving such parking area shall be clearly visible for a reasonable distance by any pedestrian or motorist approaching the access or driveway from a public or private street or alley.
- H. Marking: All parking areas for ten or more spaces shall be marked with paint lines, curb stones, or in some other manner approved by the Zoning Inspector, and shall be maintained in a clearly visible condition.
- I. Maintenance: Any owner of property used for parking areas shall maintain such areas in good condition without potholes and free of all dust, trash, or other debris.
- J. Signs: Where necessary due to multiple curb cuts, the entrances, exits, and the intended circulation pattern of the parking area shall be clearly marked.
- K. Lighting: Any lights used to illuminate a parking lot shall be so arranged as to direct the light away from the adjoining property in any R Residential District.
- L. Parking Space Dimensions: The minimum dimensions of parking spaces shall be as illustrated below:

Off-Street Parking Minimum Dimensional Table

		45°	60°	90°	Parallel
A	Width of Parking Space	12'	10'	9'	9'

1135.04 Determination of Required Spaces

In computing the number of parking spaces required by this Zoning Code, the following shall apply:

- A. Where floor area is designated as the standard for determining parking space requirements, floor area shall be the sum of the gross horizontal area of all the floors of a non-residential building measured from the faces of the exterior walls.
- B. Where seating capacity is the standard for determining parking space requirements, the capacity shall mean the number of seating units installed or indicated on each 24 lineal inches of benches or pews, except where occupancy standards are set by the fire marshal.
- C. Fractional numbers shall be increased to the next whole number.

1135.05 Joint or Collective Parking Facilities

The joint or collective provision of required off-street parking areas shall comply with the following standards and requirements:

- A. All required parking spaces shall be located on the same lot with the building or use served, except that where an increase in the number of spaces is required by a change or enlargement of use, or where such spaces are provided collectively or used jointly by two or more buildings or establishments, the required spaces may be located not farther than 500 feet from the building served.
- B. Not more than 50% of the parking spaces required for theaters, bowling alleys, dance halls, night clubs, taverns, and similar uses, and up to 100% of the parking spaces required for churches, schools, auditoriums, and similar uses may be provided and jointly used by banks, offices, retail stores, repair shops, service establishments, and similar uses that are not normally open, used, or operated during the same hours as the uses with which such spaces are jointly or collectively used.
- C. In any case where the required parking spaces are not located on the same lot with the building or use served, or where such spaces are collectively or jointly provided and used, a written agreement thereby assuring their retention for such purposes shall be properly drawn and executed by the parties concerned, approved as to form by legal counsel, and filed with the application for a Zoning Permit.

1135.06 Off-Street Storage Areas for Drive-In Services

Establishments which by their nature create lines of customers waiting to be served within automobiles shall provide off-street storage areas in accordance with the following requirements:

- A. Restaurants, drive-through beverage docks, and other similar commercial establishments that can normally serve customers in 3 minutes or less shall provide no less than five storage spaces per pick-up facility. Drive-in restaurants and other similar uses which require an additional stopping point for ordering shall provide a minimum of three additional storage spaces for each such stopping point.
- B. Other commercial establishments such as banks, savings and loan offices, or other similar facilities with service or money windows shall provide no less than four storage spaces per window.
- C. Motor vehicle service stations shall provide no less than two storage spaces for each accessible side of a gasoline pump island. Gasoline pumps shall not be located closer than 15 feet to any street right-of-way line.

1135.07 Parking Space Requirements

The amount of required off-street parking spaces for new uses or buildings, additions thereto, and additions to existing buildings shall be determined in accordance with the following minimum requirements. However, no parking area shall project into a required front yard in any residential district or be permitted between the curb line and property lines (within the right-of-way) in any district, except as otherwise provided. The number of parking spaces required for uses not specifically mentioned shall be determined by the BZA. 1137.00 SIGNAGE

1137.01 Intent

The intent of this Section is to promote and protect the public health, welfare, and safety by regulating existing and proposed outdoor advertising, outdoor billboards, and outdoor signs of all types. The burden of establishing the legal nonconforming status of any advertising sign or structure shall be upon the owner of the sign or structure.

1137.14 Loss of Legal Nonconforming Status

A legal nonconforming sign shall immediately lose its legal nonconforming status, and therefore must be brought into conformance with this Zoning Code or be removed, if the sign structure is altered; or if it is enlarged, relocated, replaced, or damaged; or if it is part of an establishment which discontinues operation for 90 consecutive days; or if it is structurally damaged to an extent greater than one-half of its estimated replacement value. 1141.00 APPEALS AND VARIANCES

1141.01 Intent

Appeals and variances shall conform to the procedures and requirements of this Zoning Code. The BZA has appellate jurisdiction relative to appeals and variances.

1141.02 Administrative Appeals

- A. Appeals to the BZA concerning interpretation or administration of this Zoning Code may be taken by any person aggrieved or by any officer or bureau of the legislative authority of Washington Township affected by any decision of the Zoning Inspector. Such appeal shall be taken within 20 days after the decision by filing, with the Zoning Inspector and with the BZA, a Notice of Appeal specifying the grounds upon which the appeal is being taken. The Zoning Inspector shall transmit to the BZA all the papers constituting the record upon which the action appealed from was taken.
- B. A record capable of transcription and containing all documents presented as evidence or utilized by the BZA shall be made of any hearing held under this section.

1141.03 Variances

The BZA may authorize upon appeal in specific cases such variance from the terms of this Zoning Code as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Zoning Code would result in unnecessary hardship for use variance and practical difficulties for area variances. No nonconforming use of neighboring lands, structures, or buildings in the same district and no permitted or nonconforming use of lands, structures, or buildings in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of convenience or profit, but only where strict application of the provisions of this Zoning Code would result in unnecessary hardship for use variance and practical difficulties for area variances.

1141.04 Application and Standards for Variances

Except as otherwise permitted in this Zoning Code, no variance in the strict application of the provisions of this Zoning Code shall be granted by the BZA unless the BZA shall find that the written application for the requested variance contains all of the following requirements:

- A. Name, address, and phone number of applicant(s).
- B. Legal description of property.
- C. Description or nature of variance requested.
- D. A fee as established by Township Trustees.

- E. A list of all property owners and their mailing addresses who are within 200 feet of the parcel requesting variance.
- F. Narrative statements establishing and substantiating that the variance conforms to the following standards:
 - 1. The granting of the variance shall be in accord with the general purpose and intent of the regulations imposed by this Zoning Code on the district in which it is located, and shall not be injurious to the area or otherwise detrimental to the public welfare.
 - 2. The granting of the variance will not permit the establishment of any use which is not otherwise permitted in the district.
 - 3. There must exist special circumstances or conditions, fully described in the findings, applicable to the land or buildings for which the variance is sought, which are peculiar to such land or buildings and do not apply generally to land or buildings in the area, and which are such that the strict application of the provisions of this Zoning Code would deprive the applicant of the reasonable use of such land or building. Mere loss in value shall not justify a variance; there must be deprivation of beneficial use of land.
 - 4. There must be proof of hardship or practical difficulty created by the strict application of this Zoning Code. It is not sufficient proof of hardship to show that greater profit would result if the variance were granted. Furthermore, the hardship complained of cannot be self-created; nor can it be established on this basis by one who purchases with or without knowledge of the restrictions; it must result from the application of this Zoning Code; it must be suffered directly by the property in question; and evidence of variances granted under similar circumstances need not be considered.
 - 5. The granting of the variance is necessary for the reasonable use of the land or building, and the variance as granted is the minimum variance that will accomplish this purpose.
 - 6. The granting of the variance requested will not confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

1141.05 Additional Conditions and Safeguards

The BZA may further prescribe any conditions and safeguards that it deems necessary to ensure that the objectives of the regulations or provisions to which the variance applies will be met. Any violation of such conditions and safeguards, when they have been made a part of the terms under which the variance has been granted, shall be deemed a punishable violation under this Zoning Code.

1141.06 Public Hearing by the Board of Zoning Appeals

The BZA shall hold a public hearing within a reasonable time after the receipt of an application for an appeal or variance from the Zoning Inspector.

1141.07 Notice of Public Hearing in Newspaper

Before conducting the public hearing required, notice of such hearing shall be given in one or more newspapers of general circulation in Washington Township at least 10 days before the date of said hearing. The notice shall set forth the time and place of the public hearing, and the nature of the proposed appeal or variance.

1141.08 Notice to Parties of Interest

Before conducting the public hearing required, written notice of such hearing shall be mailed, by first-class mail, at least 10 days before the day of the hearing to all parties within 200 feet. The failure to deliver the notification as provided in this Section shall not invalidate any such action. The notice shall contain the same information as required in Section 1141.07 Notice of Public Hearing in Newspaper.

1141.09 Action by Board of Zoning Appeals

Within a reasonable time after the public hearing, the BZA shall either approve, approve with supplemental conditions as specified in Section 1141.05 Additional Conditions and Safeguards, or disapprove the request for appeal or variance. The BZA shall further make a finding in writing that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of the land, building, or structure.

1141.10 Term of Variance

No order of the BZA granting a variance shall be valid for a period longer than 12 months from the date of such order unless the Zoning Permit or zoning approval is obtained within such period, and the erection or alteration of a building is started or the use is commenced within such period.

In addition to the powers and duties conferred upon the Zoning Commission by the Ohio Revised Code, the Zoning Commission, under this Zoning Code, shall also have the following powers, duties, and jurisdiction:

1. Rule upon and decide any issue where this Zoning Code requires Zoning Commission review and/or approval.
2. Submit recommendations to the Township Trustees regarding any and all proposals for amendments to this Zoning Code.

1143.06 Duties of the Board of Zoning Appeals

The Board of Township Trustees shall appoint a Board of Zoning Appeals in accordance with the Ohio Revised Code.

The BZA shall organize in January of each year to elect a Chairman and Vice-Chairman. The BZA shall not have the power to alter or change the zoning district classification of any property, nor to make any change in the terms of this Zoning Code, but does have power to act on those matters where this Zoning Code provides for an administrative review, interpretation, exemption, or special approval permit and to authorize a variance as defined in this Section. The BZA has the following specific responsibilities:

A. Meetings

All meetings of the BZA shall be held at the call of the Chairman and at times determined by the BZA. All hearings conducted by the BZA shall be open to the public. The Zoning Inspector, or his representatives, shall keep minutes of its proceedings showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact; and shall also keep records of its hearings and other official action. Three members of the BZA shall constitute a quorum for the conduct of its business. The BZA shall have the power to subpoena and require the attendance of witnesses, administer oaths, compel testimony, and the production of books, papers, files, and other evidence pertinent to the matters before it. The BZA shall adopt rules and regulations as it may deem necessary to effectuate the provisions of this Zoning Code.

B. Administrative Review

To hear and decide appeals where it is alleged by the appellant that there is an error in any order, requirement, permit, decision, or refusal made by the Zoning Inspector or any other administrative official in carrying out or enforcing any provisions of this Zoning Code.

C. Variance

To authorize, upon an appeal, a variance from the strict application of the provisions of this Zoning Code where by reasons of exceptional narrowness, shallowness, shape, or area of a specific piece of property at the time of enactment of this Zoning Code, or by reason of exceptional topographic conditions or other extraordinary or exceptional conditions of such property, the strict application of the regulations enacted would result in peculiar or exceptional practical difficulties to, or exceptional undue hardship upon the owner of such property provided such relief may be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of this Zoning Code. In granting a variance, the BZA may attach thereto such conditions regarding the location, character, and other features of the proposed uses as it may deem reasonable in furtherance of the purpose of this Zoning Code. In granting a variance, the BZA shall state the grounds upon which it justifies the granting of a variance.

D. Exceptions and Special Approvals

To hear and decide in accordance with the provisions of this Zoning Code, requests for exceptions, for interpretations of the Zoning Map, and for decisions on special approval situations on which this Zoning Code specifically authorizes the BZA to pass. Any exception or special approval shall be subject to such conditions as the BZA may require to preserve and promote the character of the zoning district in question and otherwise promote the purpose of this Zoning Code, including the following:

1. Interpret the provisions of this Zoning Code in such a way as to carry out the intent and purpose of the plan, as shown on the Zoning Map fixing the use districts, accompanying and made part of this Zoning Code, where street layout actually on the ground varies from the street layout as shown on the map aforesaid.
2. Permit the erection and use of a building or use of premises for public utility purposes, upon recommendation of the Zoning Commission.
3. Permit such modification of the height and area regulations as may be necessary to secure an appropriate improvement of a lot which is of such shape, or so located with relation to surrounding development or physical characteristics, that it cannot otherwise to appropriately improved without such modification.
4. Permit temporary buildings and uses for periods not to exceed 2 years in undeveloped sections of the Township and for periods not to exceed 6 months in developed sections, with the granting of 2-year and 6-month extensions being permissible.
5. Permit, upon proper application, the following character of temporary use, not otherwise permitted in any district, not to exceed 12 months with the granting of a

12-month extensions being permissible: uses which do not require the erection of any capital improvement of a structural nature.

The BZA, in granting permits for the above temporary uses, shall do so under the following conditions:

- a) The granting of the temporary use shall in no way constitute a change in the basic uses permitted in the district nor on the property wherein the temporary use is permitted.
 - b) The granting of the temporary use shall be granted in writing, stipulating all conditions as to time, nature of development permitted, and arrangements for removing the use at the termination of said temporary permit.
 - c) All setbacks, land coverage, off-street parking, lighting, and other requirements to be considered in protecting the public health, safety, peace, morals, comfort, convenience, and general welfare of the inhabitants of Washington Township, shall be made at the discretion of the BZA.
 - d) In classifying uses as not requiring capital improvement, the BZA shall determine that they are either demountable structures related to the permitted use of the land, recreation developments, such as, but not limited to: golf driving ranges and outdoor archery courts; or structures which do not require foundations, heating systems, or sanitary connections.
 - e) The use shall be in harmony with the general character of the district.
 - f) No temporary use permit shall be granted without first giving notice to owners of adjacent property of the time and place a public hearing is to be held as further provided for in this Zoning Code. Further, the BZA shall seek the review and recommendation of the Zoning Commission prior to taking of any action.
- E. In consideration of all appeals and all proposed variations to this Zoning Code, the BZA shall, before making any variations from the Zoning Code in a specific case, first determine that the proposed variation will not impair adequate supply of light and air to adjacent property, or unreasonably increase the congestion in public streets, or increase the danger of fire or endanger the public safety, or unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals, or welfare of the inhabitants of Washington Township. The concurring vote of three members of the BZA shall be necessary to reverse any order, requirements, decision, or determination of the Zoning Inspector, or to decide in favor of the applicant any matter upon which it is authorized by this Zoning Code to render a decision.

- 3:3 VISUAL APPROACH ZONE: A visual flight rules approach zone shall have a width of 500 feet at a distance of 200 feet beyond each end of the runway widening thereafter uniformly to a width of 2000 feet at a distance of 5,000 feet beyond each end of the primary surface, its center-line being a continuation of the centerline of the runway.
- 3:4 TRANSITION ZONES: Transition zones are hereby established adjacent to the runway and approach zone as indicated on the zoning map. Transition zones symmetrically located on either side of runways have variable widths as shown on the zoning map. Transition zones extend outward from a line 250 feet on either side of the centerline of the visual runway, for the length of such runway plus 200 feet on each end; and 500 feet on either side of the centerline of each precision or non-precision instrument runway, for the length of such runway plus 200 feet on each end, and are parallel and level with such runway centerlines. The transition zones along such runways slope upward and outward one (1) foot vertically for each seven (7) feet horizontally to the point where they intersect the surface of the horizontal zone. Further, transition zones are established adjacent to precision and non-precision instrument approach zones for the entire length of the approach zones. These transition zones have variable widths, as shown on the zoning map. Such transition zones flare symmetrically with either side of the runway approach zones from the base of such zones and slope upward and outward at the rate of one (1) foot vertically for each seven (7) feet horizontally to the point where they intersect the surfaces of the horizontal and conical zones.
- 3:5 HORIZONTAL ZONE: A horizontal zone is hereby established as the area 150 feet above the airport elevation or a height of 1,059 feet above mean sea level within a boundary established by a circle, the center of which is the center of the runway, with a radius of 15,840 feet. The horizontal zone does not include the approach or transition zones.

- 3:6 CONICAL ZONE: A conical zone is hereby established as the area that commences at the periphery of the horizontal zone and extends outward at a slope of 20 feet horizontal for each one (1) foot vertical there from a distance of 10,560 feet. The conical zone does not include the approach or transition zones.

ARTICLE 4

HEIGHT LIMITATIONS AND RESTRICTIONS

- 4.1 HEIGHT RESTRICTIONS: Except as otherwise provided in these regulations, no structure shall be erected, replaced, constructed or altered, nor shall objects of natural growth be permitted to grow to such height as to project into any of the respective zones described in Article 3. Where an area is covered by more than one height restriction, the more restrictive limitations shall prevail.
- 4.2 PRECISION INSTRUMENT APPROACH ZONE: One (1) foot in height for each fifty (50) feet in horizontal distance beginning at a point 200 feet from and at the centerline elevation of the end of each precision instrument runway and extending to a distance of 10,200 feet from the end of the runway; thence one (1) foot in height for each forty (40) feet in horizontal distance to a point 50,200 feet from the end of the runway.
- 4.3 NONPRECISION INSTRUMENT APPROACH ZONES: One (1) foot in height for each forty (40) feet in horizontal distance beginning at a point 200 feet from and at the centerline elevation of the end of each non-precision instrument runway and extending to a point 6,000 feet from the end of the runway.
- 4.4 VISUAL APPROACH ZONES: One (1) foot in height for each twenty (20) feet in horizontal distance beginning at a point 200 feet from and at the centerline elevation of the end of the runway and extending to a point 5,200 feet from the end of the runway.
- 4.5 TRANSITION ZONES: One (1) foot in height for each seven (7) feet in horizontal distance beginning at any point 250 feet normal to and at the elevation of the centerline of visual runways, extending 200 feet beyond each end thereof, and 500 feet normal to and at the elevation of the centerline of the precision or non-precision instrument runways, extending 200 feet beyond each end thereof, extending to a height of 150 feet above the airport elevation which is 1059 feet above mean sea level. In addition to the foregoing, there are established height limits of one (1) foot vertical height for each seven (7) feet horizontal distance measured from the edges of all approach zones for the entire length of the approach zones and extending upward and outward to the point where they intersect the horizontal or conical surfaces.
- 4.6 HORIZONTAL ZONE: One hundred fifty (150) feet above the airport elevation or a height of 1,059 feet above airport elevation (Page 2 No.5).
- 4.7 CONICAL ZONE: One (1) foot in height for each twenty (20) feet of horizontal distance beginning at the periphery of the horizontal zone, extending to a height of 350 feet above the airport elevation,
- 4.8 EXCEPTED HEIGHT LIMITATIONS: Nothing in this Regulation shall be construed as prohibiting the growth, construction or maintenance of any tree or structure to a height up to 40 feet above the surface of the land, except as otherwise specified.

Where an area is covered by more than one (1) height limitation the more restrictive limitations shall prevail.

ARTICLE 5

USE RESTRICTIONS

Notwithstanding any other provisions of this Regulation, no use may be made of land within any zone established by this Regulation in such a manner as to create electrical interference with radio communications between the airport and aircraft, make it difficult for flyers to distinguish between airport lights and others, result in glare in the eyes of flyers using the airport, impair visibility in the vicinity of the airport or otherwise endanger the landing, taking off, or maneuvering of aircraft, or in any other manner constituting an airport hazard.

ARTICLE 6

NONCONFORMING USE

- 6.1 REGULATIONS NOT RETROACTIVE: The regulations prescribes herein shall not be construed to require the removal, lowering, or other changes or alterations of any structure or tree not conforming to the regulations as of the effective date of this Regulation, or otherwise interfere with the continuance of any nonconforming use. Nothing herein contained shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this Regulation, and is diligently prosecuted.
- 6.2 MARKING AND LIGHTING: Notwithstanding the preceding provision of this Section, the owner of any nonconforming structure or tree is hereby required to permit the installation, operation, and maintenance thereon of such markers and lights as shall be deemed necessary by the Federal Aviation Administration to indicate to the operators of aircraft in the vicinity of the airport, the presence of such airport hazards. Such markers and lights shall be installed, operated, and maintained at the expense of Auglaize County, Ohio.

ARTICLE 7

PERMITS

- 7.1 LOCATIONS WHERE PERMITS ARE REQUIRED: Within the primary surface, adjacent transition zones and approach zones located within the limits of the horizontal and conical zones, no excavations shall be commended, no wall, structure, building or any part thereof shall be built, constructed or altered, nor shall any structure be moved or object of natural growth permitted, until an application has been made to and a proper permit has been obtained from the Auglaize/Shelby County Zoning Board or its duly authorized representative. For all other areas within the Airport Hazard Areas as defined in Article 2, page 2 of this regulation, the provisions of this section shall not apply to any structure or natural growth, which does not exceed the height of the imaginary surface of the Airport Hazard Area at that point. If the height of any structure or natural growth is proposed or allowed to exceed the height of the Airport Hazard Area, then the process of permit application shall be followed. The Auglaize/Shelby County Zoning Board may grant such permits upon such terms and conditions as it shall find to be just and reasonable and with such modifications as it may prescribe.

- 7.2 **APPLICATIONS:** Application forms for permits shall be provided by the Auglaize/Shelby County Zoning Board or duly authorized representative of the Board at no charge. All applications shall be submitted in duplicate to the Auglaize/Shelby County Zoning Board accompanied by accurate plans showing the exact location and height above ground, the height above mean sea level as well as such other information as may be necessary to determine and provide for enforcement of these regulations. Applications may be submitted to the Auglaize County Board of Commissioners Office Wapakoneta, Ohio 45895. Also one copy shall be sent to the Auglaize County Airport Authority: P.O. Box 400 New Knoxville, Ohio 45871.
- 7.3 **FUTURE USES:** Except at specifically provided in paragraphs a, b, and c hereunder, no material change shall be made in the use of land and no structure or tree shall be erected, altered, planted or otherwise established in any zone hereby created unless a permit therefore shall have been applied for and granted. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit shall be granted.
- (a) In the area lying within the limits of the horizontal zone and the conical zone, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground, except when because of terrain, land contour or topographic features such tree or structure would extend above the height limits prescribed for such zone.
 - (b) In the areas lying within the limits of the instrument and visual approach zones but at a horizontal distance of not less than 4,200 feet from each end of the runways, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground, except when such tree or structure would extend above the height limits prescribed for such instrument or visual approach zone.
 - (c) In the areas lying within the limits of the transition zones beyond the perimeter of the horizontal zone, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground except when such tree or structure, because of terrain, land contour or topographic features would extend above the height limit prescribed for such transition zones.

Nothing contained in any of the foregoing exceptions shall be construed as permitting or intending to permit any construction, alteration or growth of any structure or tree in excess of any of the height limits established by this Regulation except as set forth in Article 4, page 6.

- 7.5 **EXISTING USES:** No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a nonconforming use, structure, or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of this Regulation or any amendments thereto or than it is when the application for a permit is made. Except as indicated, all applications for such a permit shall be granted.
- 7.6 **NONCONFORMING USES ABANDONED OR DESTROYED:** Whenever the Auglaize/Shelby County Zoning Board or their duly authorized representative, the Airport manager, Neil Armstrong Airport, determines that a nonconforming structure or tree has been abandoned or more than 50 percent torn down, physically deteriorated, or decayed, no permit shall be granted that would allow such structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations.

- 7.7 **VARIANCES:** Any person desiring to erect or increase the height of any structure, or permit the growth of any tree, or use his property, not in accordance with the regulations prescribed herein, may apply to the Board of Appeals for a variance from such regulations. Such variances shall be allowed where it is duly found that a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but will do substantial justice and be in accordance with the spirit of this Regulation. To obtain application for a variance the same procedure is to be followed as described in Section 7.2, page 8.
- 7.8 **HAZARD MARKING AND LIGHTING:** Any permit or variance granted may, if such action is deemed advisable to effectuate the purpose of this Regulation and be reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit Auglaize County, Ohio at its own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.
- 7.9 **PERMITS NOT GRANTED:** No permit shall be granted that would allow the establishment or creation of an airport hazard, or permit a nonconforming structure to be made higher, or a nonconforming object of natural growth to become a hazard to air navigation in violation of these regulations or applicable State statutes.

ARTICLE 8

VIOLATIONS AND PENALTIES

It shall constitute a violation of these regulations for any person, firm or corporation, either owner or agent, to do any of those things mentioned herein to exceed the height limitations specified or failure to comply with the applicable hazard provisions without having first obtained the proper permit; and any permit issued upon a false statement of any fact which is material to the issuance thereof shall be void. Any person who shall proceed thereafter with the work for which the permit was issued shall be deemed guilty of violation thereof. Each violation of this Regulation, any order, or ruling promulgated hereunder shall constitute a misdemeanor and be punishable by a fine of not more than \$100, and each day a violation continues to exist shall constitute a separate offense.

ARTICLE 9

ENFORCEMENT

It shall be the duty of the Auglaize/Shelby County Zoning Board or its duly authorized Representative to administer and enforce the regulations prescribed herein. Applications for permits and variances shall be made to the authorized representative of the Auglaize/Shelby County Zoning Board upon a form furnished by them. Applications required by this Regulation to be submitted to the authorized representative of the Auglaize/Shelby County Zoning Board shall be promptly considered and granted or denied by him. Applications for action by the Board of Appeals shall be forthwith transmitted by the authorized representative of the Auglaize/Shelby County Zoning Board of Appeals.

IF THE SMALL WIND TURBINE OR WIND POWERED GENERATOR IS DETERMINED TO BE ABANDONED, THE OWNER SHALL REMOVE THE SMALL WIND TURBINE OR WIND POWERED GENERATOR AT THE OWNER'S SOLE EXPENSE WITHIN 6 MONTHS OF RECEIPT OF NOTICE OF ABANDONMENT. IF THE OWNER FAILS TO REMOVE THE SMALL WIND TURBINE OR WIND POWERED GENERATOR, THE ZONING INSPECTOR MAY PURSUE A LEGAL ACTION TO HAVE THE SMALL WIND TURBINE OR WIND POWERED GENERATOR REMOVED AT THE OWNER'S EXPENSE.~~

~~(S) — THE SMALL WIND TURBINE AND OTHER WIND-POWERED GENERATOR SHALL EITHER BE THE STOCK COLOR FROM THE MANUFACTURER OR PAINTED WITH AN APPROVED NON-REFLECTIVE, UNOBTRUSIVE COLOR THAT BLENDS IN WITH THE SURROUNDING ENVIRONMENT.~~

~~(T) — THE TOWER FOR THE SMALL WIND TURBINE SHALL BE DESIGNED AND INSTALLED SO AS TO NOT PROVIDE STEP BOLTS OR A LADDER READILY ACCESSIBLE TO THE PUBLIC FOR A MINIMUM HEIGHT OF 8 FEET ABOVE THE GROUND.~~

- 5) THE OWNER OF A SMALL WIND TURBINE OR OTHER WIND-POWERED GENERATOR MUST TAKE REASONABLE STEPS TO PREVENT AND ELIMINATE ANY INTERFERENCE WITH THE TRANSMISSION AND RECEPTION OF ELECTROMAGNETIC COMMUNICATIONS, INCLUDING BUT NOT LIMITED TO: MICROWAVE, RADIO, TELEPHONE, CELLULAR, AND TELEVISION SIGNALS.**
- 6) SMALL WIND TURBINE OR OTHER WIND-POWERED GENERATORS MUST BE ON A FREESTANDING TOWER OR OTHER APPROVED REINFORCED STRUCTURE. THE USE OF ADDITIONAL SUPPORTS INCLUDING GUY WIRES IS PROHIBITED.**
- 7) THE APPLICANT SHALL PROVIDE PROOF OF NOTIFICATION TO ADJACENT PROPERTY OWNERS AS REQUIRED BY THE OHIO REVISED CODE SECTION 519.211 (TELECOMMUNICATIONS TOWERS) AND SHALL CONFORM TO OHIO REVISED CODE SECTION 519.213.**
- 8) A MINIMUM DISTANCE BETWEEN THE GROUND AND ANY PROTRUDING BLADES IS 15 FEET AS MEASURED AT THE LOWEST POINT OF THE ARC OF THE BLADES TO A POINT NO LOWER THAN THE AVERAGE GRADE IN AND AROUND THE IMMEDIATE TOWER AREA.**
- 9) THE PROPOSED SMALL WIND TURBINE AND OTHER WIND-POWERED GENERATOR SHALL MAINTAIN A CLEAR FALL ZONE OF NO LESS THAN 125% OF THE TOTAL HEIGHT OF THE STRUCTURE FROM ANY PROPERTY LINE, CURRENT OR FUTURE STRUCTURE, AND PUBLIC OR PRIVATE ROAD RIGHT-OF-WAY.**
- 10) ON PARCELS ZONED TO PERMIT RESIDENCES, THE SIZE OF A SMALL WIND TURBINE AND OTHER WIND-POWERED GENERATOR STRUCTURES ARE SUBJECT TO THE FOLLOWING SIZE LIMITATIONS. SUBJECT SITES WITH CONTIGUOUS PARCELS IDENTICAL OWNERSHIP MAY BE CONSIDERED AS ONE LARGER PARCEL. IN DETERMINING THE HEIGHT, GRADE SHALL BE DETERMINED BY AVERAGING THE AREA AROUND THE PROPOSED LOCATION OF THE SMALL WIND TURBINE AND OTHER WIND-POWERED GENERATOR:**

APPROVED NON-REFLECTIVE, UNOBTRUSIVE COLOR THAT BLENDS WITH THE SURROUNDING ENVIRONMENT.

- 16) ABANDONED SMALL WIND TURBINES SHALL BE COMPLETELY DISMANTLED AND REMOVED FROM THE PROPERTY WITHIN TWELVE (12) MONTHS OF ITS LAST USE IN PRODUCING ELECTRICITY. WIND TURBINES TAKEN OUT OF SERVICE FOR INDEFINITE BUT TEMPORARY REASONS SHALL PROVIDE THE TOWNSHIP WITH PROOF OF PROPER MAINTENANCE. WIND TURBINES WITHOUT PROPER MAINTENANCE SHALL BE CONSIDERED ABANDONED BY THE TOWNSHIP. THE OWNER OF THE PROPERTY WHERE SMALL WIND TURBINES ARE LOCATED SHALL BE RESPONSIBLE FOR THE COSTS INCURRED FOR DISMANTLING AND DISPOSAL OF ABANDONED WIND TURBINES.**
- 17) IN ADDITION TO THE REGULATION CONTAINED HEREIN, THE APPLICANT FOR A PERMIT TO CONSTRUCT SMALL WIND TURBINES SHALL ALSO INSURE COMPLIANCE WITH THE NEIL ARMSTRONG AIRPORT ZONING REGULATIONS AND REGULATIONS OF THE FAA.**

1129.291 DEFINITIONS FOR SMALL WIND TURBINES

CLEAR FALL ZONE: THE AREA, DEFINED AS THE FURTHEST DISTANCE FROM THE TOWER BASE, IN WHICH A TOWER WILL FALL IN THE EVENT OF A STRUCTURAL FAILURE. SAID MEASUREMENT IS TO BE BASED ON THE TOTAL HEIGHT OF THE WIND TURBINE.

DECIBEL (DBA): A UNIT OF RELATIVE LOUDNESS.

ELECTRICAL GENERATOR: A DEVICE THAT PRODUCES ELECTRICAL ENERGY FROM A MECHANICAL ENERGY SOURCE. THE PROCESS IS KNOWN AS ELECTRICITY GENERATION.

FEEDER LINE: ANY POWER LINE THAT CARRIES ELECTRICAL POWER FROM ONE OR MORE WIND TURBINES OR INDIVIDUAL TRANSFORMERS ASSOCIATED WITH AN INDIVIDUAL WIND TOWER.

KILOWATT (KW): A MEASUREMENT OF ELECTRICITY, EQUAL TO 1,000 WATTS.
